Pedestrian Mall Detours

During the time that the pedestrian mall is open, Routes 3 and 10 are detoured to Harbour Drive and six temporary stops are installed. In previous years, two of the bus stops were not wheelchair accessible, two were wheelchair accessible but were shared spaces with couriers or other vehicles such as delivery trucks (the bus was not always able to pull to the curb to deploy the ramp) and only the remaining two were designated as wheelchair accessible. This year, staff worked with staff from the City's Traffic Division to designate dedicated areas for the bus stop so that all six bus stops are wheelchair accessible.
